July 4th parade in STAR - WHAT A GREAT SHOWING!

Look at that serape Lois made!! (and her helmet brim too)

***Did ya notice all the pedicures?
And everyone looked so great!***

***And trust me folks — if MY horse can
do this parade (with a flag no less),
YOUR horse can do this parade!***

***I think we had 13 members in all — and a
great mimosa party afterwards!***

Have you wanted to have a better relationship with your horse? Do you want to take your horsemanship skills further? Maybe you just want your horse to be more willing? How about lighter? And happier? These are ALL possible – I guarantee it.

Come join us for two fun days of learning and applying natural horsemanship techniques to your western riding. You'll learn how to communicate clearly with your horse and be a better partner. We'll work on softening, dealing with obstacles, and even some equitation. We work in small groups so you and your horse will get plenty of individual attention.

*"Lawrance showed me what **this** human needed to do for **that** horse, at that **exact** moment."*

From Anne Martin: I have a black 48 gal. half-moon, hay rack water caddy, by High Country Plastics for sale. Fits in most roof top hay racks. My current trailer does not have a roof top hay rack. New \$129, asking \$60. The water stayed cool enough for most weather, occasionally got a little tepid in the hot sun for several days in a row. Since it is roof top, the water flow was great.

From Nick Webber:

These are listed on Ebay as a fixed price, but if I sell them locally, there will be a savings to the buyer because there would be no shipping charges, and I will even knock off the 10% that I would have had to give to eBay. nixhorse@gmail.com
